Skills

HTML | CSS | JavaScript | ReactJs | Tailwind CSS | Material UI | Bootstrap | React Router | Redux | Firebase | Sass

Experience

Accolite Digital | Senior Software Engineer

Gurugram, Haryana, India | 02/2024 -Present

- ❖ Currently working on a healthcare project.

Connectlab (Jumpup Intelligent Services) | Frontend Developer

Gujarat, India | 10/2021 - 02/2024

- ❖ **Developed** end-to-end **responsive user interface** for mental health websites using **React JS**, integrated features like Clips, Posts, Articles, and Blogs using Custom React Hooks.
- ❖ Managed **Bug Fixes, Sprint Management, and Production Releases** of multiple websites single-handedly.
- ❖ Integrated a **Crash analytics system**, using Bugsnag to monitor and **track real-time errors** and crashes.
- ❖ Integrated **Google reCAPTCHA** and **Google AdSense**, ensuring **secure user authentication** and monetization.
- ❖ Designed responsive **HTML Email templates** for mailers using SendGrid to enhance email communication.
- ❖ Transformed a **React JS website** into an **SEO-friendly NextJs website**, enhancing SEO from **38% to 98%**.

Collaberus Technologies | Web Developer

Delhi, India | 02/2021 - 05/2021

- ❖ Developed a **landing page** showcasing the company's product with **Bootstrap, HTML5, and CSS3**.
- ❖ Developed **responsive web design** and collaborated on **API integration** with backend developers.
- ❖ Utilized Git for version control and collaborated with other developers on code reviews.

Projects

Finance Management App

Project Link: <https://financefixer.netlify.app>

Designed and developed a financial app with **React Js** and **utilized Firebase authentication** and **local storage**. Implemented listing, deletion, and filtering features by month, ensuring a seamless user experience.

macOS UI Operating System Clone

Project Link: <https://macosui.netlify.app>

Developed features like a Login Page, Docks, New folder Creation, Spotlight, Wi-Fi connections, Context Menu, Control Center, Apple Menu, Restart Window, Contacts, Launchpad, Finder, Safari, Maps, and much more.

(Project Login password = 1234)

Real-time Weather App

Project Link: <https://whatisweathernow.netlify.app>

Built a **dynamic weather app** with **real-time updates** using the **Geolocation API** and **Open Weather API**. Detects location or **allows city search**, with **dynamic background change** and animations.

Education

JCD Memorial College | Bachelor of Science

Sirsa, Haryana | 05/2017 - 05/2020

Major in the **Non-medical** stream and graduated with an aggregate of **70%**.
